

PRESIDENT NOW ASKS RELIEF FOR FARMERS

Legislation to Permit Re-financing of Mortgages Presented

TEXT IS DISCLOSED

Plans Later Legislation For Homeowners

WASHINGTON, April 3.—President Roosevelt today moved to relieve the American farmer from the burden of his mortgages. In a special message to Congress he asked for legislation to permit the refinancing of this type of indebtedness with a reduction of interest rates and "a temporary readjustment of a mortization."

At the same time, Mr. Roosevelt indicated he would ask Congress shortly for legislation enabling this government to initiate "practical reciprocal tariff agreements to break through trade barriers and establish foreign markets for farm and industrial products."

Following is the text of the message to the Congress:

"As an integral part of the broad plan to end the forced liquidation of property, to increase purchasing power and to broaden the credit structure for the benefit of both the producing and consuming elements in our population, I ask the Congress for specific legislation relating to the mortgages and other forms of indebtedness of the farmers of the nation. That many thousands of farmers in all parts of the country are unable to meet indebtedness incurred when their crop prices had a very different money value is well known to all of you."

DEFINITE STEP

The legislation now pending, which seeks to raise agricultural commodity prices, is a definite step to enable farm debtors to pay their indebtedness in commodity terms more closely approximating those in which the indebtedness was incurred but that is not enough.

"In addition the federal government should provide for the refinancing of mortgage and other indebtedness so as to accomplish a more equitable readjustment of the principal of the debt, a reduction of interest rates, which in many instances are so unconscionably high as to be contrary to a sound public policy, and, by a temporary readjustment of the principal of the debt, to give time to farmers to restore to them the hope of ultimate free ownership of their own land. I seek an end to the threatened loss of homes and productive capacity now faced by hundreds of thousands of American farm families."

"The legislation I suggest will not impose a heavy burden upon the national treasury. It will instead provide a means by which, through existing agencies of the government, the farm owners of the nation will be enabled to refinance themselves on reasonable terms, lighten their harassing burdens and give them a fair opportunity to return to sound conditions."

HOMES TO BE AIDED

"I shall presently ask for additional legislation as a part of the broad program, extending this wholesome principle to the small home owners of the nation, likewise faced with this threat."

"Also, I shall ask the Congress for legislation enabling us to initiate practical reciprocal tariff agreements to break through trade barriers and establish foreign markets for farm and industrial products."

GIRL PLUNGES INTO WELL AS BOARDS SPLIT

Helen Cupp, 14, Falls Into Pit Between Residences Sunday

CLINGS TO SIDES

Jump From Fence Breaks Rotten Boards

A thrilling experience which might have proved serious was being recounted Monday by Helen Cupp, 14, daughter of Mr. and Mrs. Edward Cupp, Abernethy-ave.

The girl fell into an abandoned well Sunday about noon and but for her own coolness and the work of rescuers might have been drowned.

She was going from her home to the residence of Mr. and Mrs. Delmo Klingensmith when she jumped on rotten boards which covered a well on the Klingensmith side of the fence. The boards only momentarily held her before she plunged into the well.

SCREAMS HEARD

While falling the girl screamed and attracted the attention of Mrs. Klingensmith who ran to the well, then called Mrs. Cupp. Mr. Cupp and his sons, Doyle, 25, and James, 18, ran to the well and found the girl clinging to stones on the sides. She had fallen into six feet of water at the bottom of the pit but with presence of mind had started to pull herself up the sides.

A rope was dropped to her and she was pulled from the well which was measured and found to be 22 feet deep.

RETURNS TO SCHOOL

She was uninjured except for a few scratches where she might have touched the sides of the well on the way to the bottom. She was able to go to school Monday, being a pupil in the Corwin-st. seventh grade.

The well is on the line between the Klingensmith and Cupp properties and had been used by both families until abandoned. Cupps cemented their side of the well but Klingensmith placed boards over their side.

PROHIBITION IN SPOTLIGHT OF 3 STATES

Michigan Votes to Decide Whether or Not to Ratify Repeal

COMMISSION WORKS

Chicago Fights Gangsters' Beer Activities

By International News Service

Prohibition, rather prohibition revision, was in the spotlight on three fronts today with the eyes of most interested persons placed on Michigan where voters went to the polls to determine whether or not to ratify repeal of the eighteenth amendment.

It is expected the state will vote overwhelmingly in favor of repeal thus making it the first of the 48 to approve the recent action of congress taking prohibition out of the federal constitution.

In Ohio, work was being rushed in six cities to open branch offices of the state liquor control commission created by the Ackerman-Lawrence 3.2 per cent beer bill passed by the legislature.

PROSECUTOR DEFIED

In Chicago, gangland today had defied State's Attorney Thomas Courtney's campaign to halt the underworld invasion of the light-metre beer industry by manufacturing a soft drink parlor owned and bombing another establishment.

Four hours after the prosecutor summoned a hurried meeting of Chicago's licensed brewers to discuss strong-arm campaigns of the gangster George Rusek, 45, was found slain in a bedroom of his establishment.

Police were convinced that the beer racketeers tried to force Rusek to pay \$17 a barrel for his beer.

Fears of Michigan voters that apathy among the electorate might cause an upset, appeared founded this morning. Posing places in Detroit and the larger up state cities were crowded at an early hour.

The voters were to choose pledge delegates to a special convention which meets at Lansing a week from today to cast the state's vote for or against ratification. If the convention is held, and predominantly wet as expected, ratification will probably be pushed through without an hour's delay.

SHOW REPEAL EDGE

The state's electorate showed their will last November by repealing the prohibition clause in the state constitution by a landslide. The referendum, however, did not touch the severe prohibition statutes which remain in effect.

According to L. L. Faris, newly appointed director of Ohio, the commission, it is hoped to have branch offices operating under full steam in Youngstown, Cleveland, Akron, Cincinnati, Dayton, and Toledo late today.

Applications for license to handle 3.2 percent beer will be received at the branch offices and forwarded to headquarters at Columbus from where the permits will be issued.

Plans are being made for a heavy influx of applications for permits. Faris estimated today that machinery is being set up to handle approximately 10,000 applications before and soon after April 7 when the Ackerman-Lawrence bill, legalizing beer, becomes effective.

DELAY SOME PERMITS

Pointing out that it will be physically impossible to handle all of the applications for permits before April 7, Faris said plans were being made for the issuance of temporary permits where circumstances warrant.

Although activities of the beer commissions were getting into full swing today, four more members of the administrative group are yet to be named by Governor George White. Four members, including Faris, have already been selected. They are: Edward T. Dixon and L. J. Sklenicka, Democrats, and John M. Taylor, Republican.

Leaders Change in A. B. C. Match

COLUMBUS, April 3.—Maple League reached fever heat at the annual Bowling Congress here today following the most terrific argument to date yesterday in which "Big Ten" leaders were doubled helter-skelter out of their seats.

In every division of the tournament, save the all-even, a new leader was posted in top place of the "Big Ten" standings.

Toppling the five-man event division today was a Corning, Ky., leader, known as Flaig's optical, which ripped the sticks for a total of 221, 237 and 264.

The Kentucky outfit, hauling the hometown of Larry Shotwell, the boy who startled the bowling world in 1930 by pounding out a new all-time score of 221 in the singles event of the congress, accumulated its total on scores of 1023, 968 and 1030.

A new leader was also astride the doubles event of the tournament. Smashing out a powerful score of 1356, the St. Louis team of Forrest Beyne and Dave Knapp held first place at the outset of today's assault. Some 34 points behind them in second place were Hazelton, N. J., pair of A. J. J. and J. B. with 1322.

The new leader in the singles event today was Rudy Reigel of Milwaukee, who banged out a

total of 722 shortly after Andy Tomasek of Cleveland had hit the pins for a total of 721. Reigel's game scores were 221, 237 and 264.

CENTRAL BASEBALL LEAGUE SUSPENDED

DAYTON, April 3.—Ohio was without its "Central Baseball league" today as the result of action by Ducky Holmes, holder of the Dayton franchise, who declined to grant league interests 48 hours more in which to line up Evansville, Ind., for the circuit.

Holmes announced later he was applying for a franchise in the Mid-Atlantic league. His application is due to be acted upon tomorrow at a meeting in Wheeling, W. Va.

Operations of the Central league will be suspended for one year under the present arrangements. Holmes had authority from Judge W. G. Branham, president of the Professional Baseball association to take his club from the Central loop if he thought conditions warranted it, and join the Mid-Atlantic league.

New Giant Mystery

With the "release" of Billy Southworth as coach, the New York Giants have given the sports writers another mystery to speculate upon until the boys come North. COACH PLANS INTER-CLASS TRACK EVENT

Meet to Be Staged April 19
With Letter-Men and All
Taking Part

Coach P. S. Herberholz, of Circleville high school, announced Monday that plans are being made for an inter-class track and field tournament to be held on the school grounds Wednesday, April 19.

One of the objects of the event is to attempt to uncover material for the varsity squad.

Letter-men and everyone else will be given the opportunity to take part. Since there are only four letter-men at the school, Bill Heggie, Dean White, Russell Skaggs and Freddie Smith, Coach Herberholz has decided to permit them to take part in the meet.

All events will be staged with competition expected to be hot and heavy. The class basketball tournament just ended proved that inter-class meets are successes and this track and field meet should prove the same.

TRAIN WRECK INVESTIGATED

Boston Red Sox Players Unhurt in Crash Fatal to Two Trainmen

DOVER, Del., April 3.—A dual investigation was under way today to track down the plotters believed to have wrecked a Pennsylvania express near here yesterday.

Two men were killed and 13 persons injured when the Norfolk-New York night express was derailed by a deliberate plot to wreck the train was charged after police and railroad officials found a partly opened switch, which they declared had been tampered with.

It was the second attempt in Delaware in a little more than three days. Wednesday night the engineer of a Harrington-Franklin city gasoline-electric train noticed a railroad tie across the tracks just in time to avert a wreck.

The wrecked train carried 39 Boston Red Sox baseball players, returning from spring training in the south, but none of them was injured.

The dead were: C. A. Burkhardt, Wilmington, Del., engineer; E. L. Poulsen, Delmar, Del., fireman.

About This And That

BY THE SECOND GUESSER

COLUMBUS sports-writers are claiming a championship for their Red Bird baseball team. But you can mark it in your little book that championship isn't coming unless Mr. Larry MacPhail and other powers-that-be get out and get a couple of ball players who will fill glaring holes in the present lineup. One of the positions is shortstop, the other, although not quite so wide as shortstop is first base.

Otto Ruegge, who filled the shortstop position in such satisfactory style a year ago, is back with Cincinnati BUT HE MIGHT NOT STAY THERE. Pat Crawford, voted the most valuable player in the A. A. last year, is back with the Cardinals to whom he belongs, and has a good chance to stay there. Crawford played three games at second base a week ago all without a single error.

The Columbus manager has been forced to experiment with Wally Gilbert at shortstop although the former Dodger-Red never played a thing but third base in his life. We'll wager he'd be the most valuable third sacker in the league if he were placed there and kept there through the year. An untried rookie, named Caldwell, who comes up from Greensboro and has played fair ball in the spring camp, is holding down first base at the present time. The question is: Will the Red Birds go out and get the necessary men before the season starts or after the chase has progressed a month or so to find them behind several teams which are now ready for the going?

WHILE writing this two ball players come to mind whom it is our belief could be obtained by the Red Birds if they would go after them. One is Art Shires and the other Rabbit Warstler. The former is with the Boston Braves with a \$5,000 price tag on him, the other with the Boston Red Sox with a good chance to ride the bench with Grey Mulvey apparently winning the short field berth. Neither man needs an introduction as both have made names for themselves in baseball. Shires with several clubs and Warstler with Indianapolis besides the Boston team.

What Outlook for City Dwellers in Farming?

* * * * *

Failure—According to Noted Author. Success—if Properly Handled, Says Henry Ford, Who Advocates Linking Farming and Industry.

MODEL FORD FARM HOUSE

WORKERS ON HENRY FORD'S EXPERIMENTAL FARM

While plans and theories dealing with the de-centralization of industry and the "back-to-the-farm" movement are being discussed as a means of promoting economic recovery, the question arises: What chance does a city-bred man in farming? Arthur Train, noted novelist, whose latest novel, "The Man Who Went Back," deals with that very question, is frankly skeptical that a city dweller could ever succeed as a farmer. Train believes that a man must be born and bred to it. He doesn't believe farming can be learned like bridge or new football rules. Besides, even if a city man did happen to succeed in raising a crop, he could not compete with his expert neighbors. Train doubts if a transplanted city man can even be happy on a farm. He is viewed with suspicion, even hostility, by his neighbors, says the novelist, and ends by advising every man to stick to his own trade. However, the main thing at present seems to be to insure every man, woman and child of enough to eat. It is a poor farmer indeed who could not raise enough produce to feed his family. And whereas a city man can do nothing in his own environment except automobile magnate, is more hopeful than Mr. Train. Mr. Ford believes that farming can be made to pay it, farmers will get rid of the idea that agriculture is solely a food proposition. At Ford's model farm in Lenawee County, Mich., he has experimented with farm produce and found that much of it can be profitably utilized in industry. A staunch advocate of the back to the farm idea, Ford believes that "farming for industry" may be the solution of the ever-present agrarian riddle.

Begin Testimony In Negro Trials

DECATUR, Ala., April 3.—Testimony was to be launched today in the case of Haywood Patterson, first of the seven Scottsboro negroes to be retried by mandate of the United States Supreme court which set aside their death sentence for criminal assault on two white women.

Whether the five alleged radical organizers cited Saturday for contempt of court would appear was doubtful. They were reported to have left town. The asserted agitators included three white persons from New York, one a woman, and two negroes were arrested by Decatur police as they emerged from the negro section. They were said to have been enlisting negroes in defense of the Scottsboro negroes.

Otherwise the town was quiet. The jury was taken to St. John's Episcopal church Sunday and heard a sermon counselling tolerance in the affairs of life. The case was not mentioned.

Victoria Price, one of the two Huntsville girls alleged to have been attacked on a freight train two years ago, was expected to be the first witness for the state. The second alleged victim of the gang assault, Ruby Bates was reported still missing. She was said to have disappeared from her home March 27 but the state was ready to proceed with an indictment charging Patterson with attacking Mrs. Price alone.

Alabama national guardsmen have been on duty at the court house since the trial opened a week ago.

The entire week was taken up with motions by the defense to

quash the indictment and the jury venire on the ground that negroes were barred from the grand and petit juries in the case, both motions were denied by Circuit Judge James E. Horton.

The jury of three farmers and nine townsmen was selected Friday night. Adjournment to Monday then was taken.

Patch Work in New and Old Designs in the Wonder Package

New in the ways they may be used, old in the fact that some of the patterns, as these in the above illustration are of the most famous old standard patterns, like the Cherry Basket Pattern is new in the variety of ways in which it can be used. In making a quilt with this design, the size of the quilt is determined by the number of squares you use. Also by the width of cross pieces and border. In the actual pattern, you get in the Wonder Package, each square is eleven inches finished. Any colors may be combined, and any materials used in your patch work.

French Penal Code
France does not send all persons who commit crimes to the French penal colony on the Isle de Salut, off the coast of French Guiana. The type of prisoners sent is that, generally speaking, of the undesirable habitual criminal whom the French government does not want to return to France. In sentencing the criminal to the colonies the type of criminal rather than the type of crime committed is stressed, such as undesirable political prisoners, as well as vicious habitual criminals.

OHIO HISTORIAN DIES OF INJURIES

SPRINGFIELD, April 3.—Albert L. Slager, 81, known throughout Ohio for his historical work, was dead today, and six other persons were injured, none seriously, as the result of an automobile collision here last night.

One of the oldest residents of this district, Slager served as secretary of the Clark-co Historical society and curator of the county historical museum. He also was the author of a number of books, including the histories of the city and county and the "History of Early Methodism in the Ohio Valley."

Lincoln's Washington Church Abraham Lincoln, while President, attended the service of the New York Avenue Presbyterian church. He sat in a small room adjoining that in which the service was held. Thus his presence was kept private and no "political capital" could be made of his attendance.

To Find Truth

There are two ways of reaching truth—by reasoning it out and by feeling it out. All the profoundest truths are felt out. The deep cleavances into truth are got by love. Love a man, that is the best way of understanding him. Feel a truth, that is the way of comprehending it. —I. W. Robertson.

forecast for the Week

STARS THE INFLUENCE OF THE STARS DURING THE WEEK OF APRIL 2, 1933.

Last week the planet Uranus was transiting over the Sun position of those who were born on April 12 and this week they are still feeling the effect of this transit. Those born on April 13 are beginning to feel the effect as are also those born October 16 or 17. As we have cautioned you in previous articles, Make no changes in your affairs until you are sure that you are doing "the right thing." Under such planetary influence you are likely to do things for which you may be sorry afterward.

Neptune is still aggravating the affairs of those born August 31 or February 1.

During this week Jupiter will be sending his helpful vibrations to those born on September 7 or 8. If either of these two days happen to be your birthday, consider this your "lucky week."

Saturn will cause some disappointments this week to those whose birthday falls on February 3 or August 7. Things will brighten up next week, so cheer up.

You readers who were born in the period March 28 to April 4 can expect things to brighten up considerably this week. It will be just the time to enjoy any kind of sociality. Some engagements and marriages for those born in the period are forecast.

If you were born in the period August 24 to 26, watch your health habits. You may suffer from severe abdominal pains but don't get alarmed—they may not be as serious as they seem. Mars the inflammatory planet is passing over your Sun position this week.

The general conditions as forecast by the planetary influences are:

Monday April 3.—From 7 to 9 p. m. take care that you do not do anything from sheer impulse. This tendency will be strong with most of us all during the hours mentioned. Keep your emotions under control.

Tuesday April 4.—Business will be a little dull from 9 a. m. to noon but better in the afternoon, especially in the real estate line.

Wednesday April 5.—All those born on January 5, May 5 or November 7 should be very cautious on this day. Avoid all arguments in the home and with friends. Make no land deals. After 2 p. m. this influence will have passed. The rest of the day is under good planetary vibrations.

Thursday April 6.—Accidents will be numerous from 9 a. m. to 9 p. m., so watch your step.

Friday April 7.—Not much to say about the general planetary conditions but we might give a note of warning to those whose birthday is February 26 to stay away from deep water to be careful as to what they eat and drink and also to avoid the use of drugs and anesthetics. This will apply to Saturday as well as Friday.

Saturday April 8.—Any afternoon social affair is likely to be rather disappointing. The evening will be much better.

The general planetary influences for the whole week are nothing to boast about and it behooves all of us to act with extreme caution in all that we undertake to do this week.

With the Chinese cricket presented to him by an admirer, Dr. Edwin B. Frost, world famous astronomer of Yerkes Observatory who lost his eyesight scouring the heavens at night, can tell the temperature. He has evolved a mathematical formula that enables him to tell the temperature by the number of chirps the cricket makes in a given time. The recipe by Dr. Frost's right hand is the cricket's horn.

BE SURE YOUR FAMILY USES PASTEURIZED MILK

Pasteurization is your only positive assurance that your milk is absolutely pure. Pasteurization of milk means heating it to 142 to 145 degrees and holding it at that temperature for twenty minutes. This process destroys any dangerous bacteria which may have gotten into the milk from any source. Experts have proved that none of the valuable food elements found in milk are harmed by the process. Why take a chance with just ordinary milk. Pasteurization of your milk supply is a form of health insurance that is as important to your family as protection of the water supply. Leading health authorities, food specialists, and doctors insist on Pasteurized milk... it is not only safe but wise to follow their advice.
